Dear Mr. Brown:

Thank you for your letter with regard to your concerns about human rights abuses of people disabled by pollution.

It has been brought to my attention that the District Health Council has agreed to recognize environmental hypersensitivity as a disabling physical condition and is in the process of dealing with the issue constructively.

I am pleased to see that this issue can be resolved by using the Human Rights Code and that an educational workshop to discuss the nature and extent of environmental hypersensitivity is being organized for April 6, 1990, by the District Health Council.

Once again, thank you for bringing your concerns with regard to this important matter to my attention.

Sincerely,

Bob Wong
Minister
